What is Yazaki energy systems?

Yazaki Energy Systems is a maker of air-chilled commercial heating, ventilation, and air-conditioning systems that do not use ozone-depleting CFCs, or chlorofluorocarbons. The company makes climate-controlling products for use in schools, offices, hospitals, hotels, and industrial facilities.

How many locations does Yazaki have?

With 619 strategically-located facilities, Yazaki's global footprint makes it possible for us to ensure that we meet growing production demands and critical logistics requirements for our customers around the world.

Who is Yazaki Electric Wire Corporation?

Established as Yazaki electric wire corporation in 1963 and changed its trade name in 2012. (055)924-2230  
General plastic wire, polyethylene wire, power cable, communication cable, fire-resistant/heat-resistant/disaster prevention cable, ecology cable, branched cable (Yazaki branch)  
(0550)89-1811

What is a Yazaki absorption chiller-heater?

A Yazaki absorption chiller-heater, using water as the refrigerant, is today's best choice in air conditioning for protecting the environment and reducing the cost of energy. Capacities of 5 through 200 RT are available to either cool or heat installations such as schools, offices, hospitals, industrial facilities, and hotels.

Why is Yazaki a 'decommoditization & returning to the origins'?

Under the slogans of "Decommoditization" and "Returning to the origins of YAZAKI," production and sales development are united to continue internal business expansion and new business challenges. As the energy society changes, this is an opportunity to develop products that optimally utilize diverse energy sources.

Why should you choose Yazaki?

Yazaki has the expertise and resources to optimize power and data delivery in the more capable, feature-rich vehicles demanded by today's auto consumer.

Established Yazaki Energy System Corporation (formerly Yazaki Electric Wire Co., Ltd.), to become a comprehensive producer of all types of energy. 2021. Launched water fired chiller for cogeneration. By recovering hot water up to a lower temperature, the waste heat of the generator can be fully utilized.

As a heat specialist, we contribute to energy saving and CO2 reduction by proposing optimal waste heat utilization methods and air conditioning cooling systems for each customer's building and application.

Discover the wide range of energy solutions applications by Yazaki Energy, from industrial cooling systems to cogeneration and energy storage solutions. Learn how our efficient products improve performance across various industries.

Explore Yazaki Energy's collection of technical documents, product brochures, case studies, and literature on energy-efficient cooling solutions, sustainability, and carbon-neutral technologies. Download our resources today. ... To make it easier to find the document you are looking for on any Yazaki Energy Systems, Inc. product, we have ...

The CHMG gas-fired cogeneration system from Yazaki Energy combines high-efficiency power generation with thermal energy output, making it ideal for industries aiming to reduce their carbon footprint and enhance energy efficiency. Whether for fuel switching, load shifting, or capturing waste heat, this system delivers reliable and cost-effective ...

5,10,20,30 and 50 RT. S-Series Water Fired Single Effect Absorption Chiller / Chiller-Heater. General Description. The Contractor shall furnish and install \_\_\_ (Qty) Yazaki model WFC-S \_\_\_ Water Fired, Single-Effect, Absorption Chiller(s) / Chiller-Heater(s) as shown on the drawings and in accordance with these specifications.

Yazaki MG-Series gas-fired DOUBLE-EFFECT chiller-heaters, with cooling capacities of 150 and 200 tons of refrigeration, are designed for commercial applications where chilled water and hot water are used in a central air conditioning system. The condenser is water cooled and heat is rejected through a cooling tower.

For more information on how Yazaki Energy Systems, Inc. can help with your solar, waste heat, or gas cooling project, contact us at: Yazaki Energy Systems, Inc. 701 East Plano Parkway, Suite 305 Plano, TX 75074 Phone: (469) 229-5443 Fax: (469) 229-5448 Email: yazaki@yazakienergy

?Optimized for customers considering to save energy by utilizing waste heat for both cooling and heating.  
?Cooling and heating can be switched automatically and can be operated with direct fired absorption chiller.  
?Able to provide ...
