Containerised generators offer increased levels of weather protection for the generator unit in harsh environments. For example they're ideal for exposed locations, marine environment, oil and gas applications. As they're enclosed in a secure container that is usually a clean environment they often require less maintenance.

Built in robust and durable containers, our containerized generators are designed for various applications. We offer a standard range of containers featuring key features such as aluminum floors, mechanical louvers, internal lighting, and ...

Containerized Solar Generators Market is projected to grow at a CAGR of 6.91% between 2025 to 2030. The growth in population and the rise in industrialization have led to unprecedented demand for energy. The use of non-renewable energy sources to meet the growing demand has led to adverse climatic conditions and the risk of depletion of fossil ...

The Atlas Copco QAC 1500 TwinPower generator is a 20-foot containerized generator providing over 1 Megawatt of prime power! We understand your need for power, versatility and reliability. The two 725kVA generators inside make it perfect for applications that have variable power needs, especially in the Industrial Power Plant (IPP), Events, Oil ...

Since its introduction in 2022, Centum(TM) has been the pillar of innovation for Cummins Power Generation. We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new benchmarks in footprint optimization, layout flexibility, ease of transportation and overall reliability.
