

Who is responsible for the energy sector in Zimbabwe?

The MOEPD has overall responsibility for the energy sector in Zimbabwe. It is responsible for policy formulation and implementation, an oversight role over the government-owned utilities (ZETDC and ZPC), ZRA jointly with Zambia and the activities of ZERA. It is also responsible for regional and international cooperation on renewable energy issues.

How many MW of solar energy has Zimbabwe deployed in 2022?

According to the International Renewable Energy Agency, Zimbabwe had deployed 41 MW of solar by the end of 2022. This content is protected by copyright and may not be reused. If you want to cooperate with us and would like to reuse some of our content, please contact: editors@pv-magazine.com.

What is "renewable energy" in Zimbabwe?

The NREP defines "renewable energy" as referring to "small hydro (equal to or less than 30MW), solar, wind, geothermal, biofuels and biomass and other such clean energy sources approved by the Ministry responsible for Energy in Zimbabwe".

Who owns the electricity in Zimbabwe?

ZPC owns the electricity generation assets and is responsible for electricity generation. It also owns the Kariba Hydro power stations, which presently generate approximately 50% of the electricity generated in Zimbabwe. ZETDC is the utility that owns the transmission and distribution infrastructure in Zimbabwe.

Why is Zimbabwe focusing on renewables?

Zimbabwe's focus on renewables comes as it attempts to lessen its reliance on energy imports and improve access to electricity, as World Bank data shows that just 49% of the country had access in 2021. The country still faces significant power deficits, which contribute to regular power outages.

Will Zimbabwe have a green hydrogen power plant?

Plans for Zimbabwe's first utility-scale green hydrogen power plant, with 178 GWh of expected annual electricity production, were finalized in March 2023. According to the International Renewable Energy Agency, Zimbabwe had deployed 41 MW of solar by the end of 2022. This content is protected by copyright and may not be reused.
