

# Zimbabwe xendee corporation

Why is xendee a great company?

“Xendee is thrilled to see the success of our customers and the expanding interest in our software platform to streamline the sales, design, and operation of clean energy projects,” said Adib Nasle, CEO and Co-Founder of Xendee. “Our enthusiasm stems from the pivotal role our innovative solutions play in advancing toward a more sustainable future.”

What technologies does xendee design support?

Xendee DESIGN supports 25+ technologies such as electric vehicles, cold storage, CHP, batteries and PV systems, in combination with eight different energy domains like electricity, heating, cooling, domestic hot water, natural gas, biogas, biomass, and hydrogen, all in one design system.

Does xendee support EV charging?

The first major Xendee launch of the year was MOBILITY, which allows firms to quickly design EV charging infrastructure supported by Distributed Energy Resources. However, in order to move any EV charging, DER, or microgrid project forward, feasibility analysis and design approval must take place.

What services does xendee provide?

Optimal solutions can be analyzed with Time Series simulation, short circuit analysis, and automatic transformer and cable sizing. For support in modeling these technologies, Xendee provides modeling services to its licensees to help augment the capabilities of your team.

Is xendee a DoD certified platform?

As a result, Xendee is a DoD certified, cyber secure platform. We guide you through the different steps needed for detailed and bankable design. Outputs are easily shareable with both engineering and financial stakeholders, and incorporate government and local incentives.

What are xendee APIs?

APIs allow direct data transfer to Xendee for a large number of sensitivity runs or projects. Built-in catalogs for technologies. APIs that import site-specific information (weather data, solar radiation, wind speed, marginal emissions, utility tariffs) automatically or in 2-3 mouse-clicks.

Xendee Corporation, provider of the leading design and operation platform for distributed energy systems and Electric Vehicle (EV) fast-charging infrastructure, announces the achievement of important milestones in their contract to support NEOM, a visionary development aiming to create a sustainable and futuristic city in the northwest region of the Kingdom of ...

With this report Xendee Corporation and Idaho National Laboratory conclude the first version of the Microgrid Fast Charging Station (MFCS) Design Platform as well as all related tests and validations for two

in-depth case studies for islanded and non-islanded operation.

XENDEE has 5 employees at their 1 location and \$20 m in total funding,. See insights on XENDEE including office locations, competitors, revenue, financials, executives, subsidiaries and more at Craft. ... XENDEE Corporation is a company developing a cloud computing platform for microgrid and distributed energy system design and operation ...

Xendee DESIGN supports 25+ technologies such as electric vehicles, cold storage, CHP, batteries and PV systems, in combination with eight different energy domains like electricity, heating, cooling, domestic hot water, natural ...

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation, the leading distributed energy system and Electric Vehicle (EV) fast-charging design and operation platform, is... Xendee Reports Remarkable Growth and Innovation in 2023

SAN DIEGO--(EIN PRESSWIRE)--Idaho National Laboratory (INL), in partnership with Xendee Corporation and Reilly Associates, has released a new report titled "Small Reactors in Microgrids: Technology Modeling and Selection."The report details a comprehensive model for techno-economic analysis that explores the potential of small ...

Find company research, competitor information, contact details & financial data for Xendee Corporation of La Jolla, CA. Get the latest business insights from Dun & Bradstreet.

Xendee Corporation Overview. Xendee Corporation filed as a Statement & Designation By Foreign Corporation in the State of California on Wednesday, June 20, 2018 and is approximately six years old, as recorded in documents filed with California Secretary of State.A corporate filing is called a foreign filing when an existing corporate entity files in a state other ...

XENDEE Corporation has partnered with Idaho National Laboratory to develop an optimized platform for designing Microgrid Fast Charging Stations (MFCS) quickly and effectively. This project is funded by the DOE Office of Electricity, Microgrid Program.

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation, provider of the leading design and operation platform for distributed energy systems and Electric Vehicle (EV) fast-charging infrastructure, releases the findings of its 2024 Commercial EV Charging Market Survey, the second in the series of annual research studies.Xendee launched this research survey of ...

About Xendee Corporation Xendee is an award-winning software platform built to integrate the feasibility analysis, detailed engineering, and operation of Distributed Energy Resources and EV fast-charging ...

Xendee develops software that helps planners and investors validate the technical and financial performance
